Our passion is to design, engineer and manufacture lighting statements through our product.

**design** Since our foundation in 1998, ALM's mission is to be a leader in decorative and architectural light manufacturing. We are not limited to the manufacturing of high quality light fixtures; we understand light and endeavor to improve the integration between light and architecture.

**engineer** ALM Architectural Lighting is a manufacturer of innovative, high-quality lighting. With both a standard fixture series and custom design, we offer an unlimited choice of designs, materials, finishes and lighting options. If you don't find what you're looking for in our standard line, we will work with you to develop specific designs and custom-made solutions.

**manufacture** Our standard series of fixtures offer clients economical and high quality design options. Choosing from this line ensures a quick turnaround for your project. Our standard line will continue to expand as we strive to bring our clients new designs and the latest technology in materials and light sources. In addition, with the wide variety of detailing options we offer, there is a standard fixture to meet most of your lighting needs.

ceiling

# star

Cylindrical ceiling light fixture with external Clear Glass and internal Satin Glass diffuser. The fixture emits indirect symmetrical light creating a comfortable mood and a soft, decorative luminance-balancing effect.

**Finish**  
Clear Anodized Aluminum

**Diffuser**  
Clear Glass

**Lamping**  
**1320.C95GG16**  
1 x 39 Watt T4, MH / G8.5  
**1320.C89GG16**  
1 x 20 Watt T4, MH / G8.5

**Consult factory for LED options**  
Specify 120 or 277 Volt  
Wet Location

# omnia

Emits soft, diffused, direct and indirect light. Creates suitable illumination for hallways and stairs.

clearline

# clearline

A clean, elegant design and simple technical details are the design principles of the ClearLine profile lighting system.

Streamlined and minimal, the ClearLine pendant is an elegant and refined option for direct and indirect illumination in offices or reception desks. A satin-finished acrylic lens provides soft diffused light.

ClearLine pendant mounts via aircraft cable. Cable grippers used allow one to adjust mounting height without tools. Special optics of the acrylic lens limits light distribution in order to reduce glare. ClearLine is a flexible system that easily adapts itself to different types of situations and architectural spaces.
